CLASS 1

ELECTRIC MOTOR RIDERS

ToyotaForklift.com

QUIETLY POWERFUL, POWERFULLY EFFICIENT

NO. 1 SELLING ELECTRIC FORKLIFT

THE TOYOTA CORE ELECTRIC FORKLIFT. It's big on small-space productivity. Carrying up to 6500 pounds. Lifting as high as 23 feet. Unloading more pallets at once in confined aisles. And the powerfully efficient AC motors, designed and built by Toyota, maximize uptime and reduce overall cost of ownership. When the going gets tight, the Core Electric gets going.

CORE ELECTRIC ADVANTAGES

- **SYSTEM OF ACTIVE STABILITY (SAS®)** automatically detects potentially unsafe conditions and engages additional safety features for increased operator protection and reduced product and forklift damage
- **ACTIVE MAST CONTROL** responds automatically to enhance stability of loads handled at high lift heights
- **FORWARD TILT ANGLE CONTROL & REAR TILT SPEED CONTROL** act automatically in uncertain situations to protect operator and reduce product and forklift damage
- **AC DRIVE AND PUMP MOTORS** designed and built by Toyota to deliver powerful, smooth, and efficient performance shift after shift
- **ONE-WAY AUTOMATIC FORK LEVELING** levels forks parallel to the ground from back tilt position with the push of a button
- **REGENERATIVE BRAKING** improves overall efficiency and prolongs brake component life
- **PROGRAMMABLE PERFORMANCE PARAMETERS** are customizable via digital display to fit a variety of job applications and operator skill levels

3000–6500 LB.

CAPACITY

AISLES AS NARROW AS **11 FT.**

23 FT. LIFT HEIGHT

- **DUAL OPERATOR ASSIST GRIPS** and low, wide step for easy forklift entrance and exit from both sides
- **STANDARD 4-WAY ADJUSTABLE FULL-SUSPENSION SEAT** is wider with no hip restraints for easier entry/exit than competitors' seats; weight adjustable for greater operator comfort
- **SPACIOUS OPERATOR COMPARTMENT** with cup holder, utility tray, and expansive legroom for increased comfort
- **ON-DEMAND POWER STEERING** for smooth, responsive operation while isolating vibration and shock
- **SERVICEABILITY BY DESIGN** including easy access motors and controllers and a no-tools-required floorboard
- **WELDED, ROLL-FORMED OVERHEAD GUARD PILLARS** provide maximum operator protection with excellent entry/exit and load visibility

SAS

SYSTEM OF ACTIVE STABILITY

UP TO **11.8** MPH

TRAVEL SPEED (FULL LOAD)

36V/48V

AC MOTORS

UP TO **108** FPM

LIFT SPEED (FULL LOAD)

MORE COMFORT = GREATER PRODUCTIVITY

It's a winning equation. And the driving force behind the Core Electric's operator compartment — a space designed to maximize productivity and ergonomics. With intuitive controls. Power steering for smooth responsiveness, plus vibration dampening for reduced operator fatigue. A memory tilt steering column and seat travel adjustability to accommodate operators of all sizes. And a heavy-duty non-slip floor mat to minimize noise, heat, and vibration. All so you can do more, more comfortably.

FRIENDLIER TO THE ENVIRONMENT

Smooth AC power. It's quietly efficient and environmentally friendly. Plus it gives you access to applications often unsuitable for IC forklifts. Including food, beverage, and indoor environments with limited ventilation. And with industry-leading travel and lift speeds, and three forms of energy regeneration, you won't have to pay a performance penalty for that access.

LCD Multifunction Display (STD) & Pin Code Entry System (OPT)

Heavy-duty Non-slip Floor Mat

EZ Control Joystick (OPT)

Heavy-Gauge, Formed-Steel Battery Compartment Hood

Dual Operator Assist Grips

Rear Combination Lights (OPT)

STABILITY: NOW AN ACTION VERB

Toyota's System of Active Stability springs into action when operators encounter unanticipated load and speed conditions.

Active Control Rear Stabilizer senses potentially-dangerous turn speeds and widens the forklift's center of gravity to decrease the likelihood of a lateral tip-over.

Active Mast Control automatically limits operator actions that could cause the forklift to tip forward or backward. Forward tilt control monitors load weight and mast height, then acts to limit forward tilt in potentially-unstable situations. Rear tilt control slows tilt speed to half, decreasing the chances of spilling unsecured loads and increasing forklift stability.

AN INVESTMENT THAT PAYS YOU BACK

Some competitors are content to design and build a forklift with systems bought off the shelf. Toyota demands better for its customers. It's a forklift with better components and meticulously planned, integrated systems that work together to deliver intuitive, dependable performance day after day. Toyota forklifts don't often require service. But when they do, it's fast and easy — by design. And legendary Toyota quality means more productivity over the lifecycle of your forklift, along with lower repair costs. Higher residual value is another bonus.

ALL-AROUND INDOOR PERFORMER

The Toyota Core Electric Forklift blends powerful lifting capabilities and nimble narrow-aisle navigability with the environmental and sustainability advantages of clean electric power. It gives you access to specialized indoor applications. And it delivers the muscle you need to get more done, in one compact, versatile forklift. Best of all, it's a Toyota — proven the most dependable, reliable, and safe line of forklifts you can buy*.
