

IMPROVE YOUR EFFICIENCY

TORA-MAX COMPACT ELECTRIC WALKIE

The Tora-Max Compact Electric Walkie makes short work of any mid-size material handling job. With a tight turning radius and capacity options of 3,300 lbs. and 4,500 lbs., the Tora-Max Compact Electric Walkie combines ample maneuverability and heavy lifting capacity in a small package.

Electric lift and lower and powerful drive motors enhance your productivity and efficiency, whether you're delivering materials to a manufacturing line or re-stocking a retail storefront. And the cartridge-style lithium-ion battery offers quick battery exchange and charging to keep you moving.
